

Art Stories CITIES

Press Kit, Milano 1 febbraio 2017

Art Stories CITIES app offers a jolly good chance to discover cities of the world, making art and architecture a playful object!

Designed for children aged 5 to 10 to foster curiosity and creativity, the app displays various situations: you can taste life in different countries by playing with **Venice, London, Shanghai, San Francisco, Rio de Janeiro, Moscow** and **Athens**.

Original illustrations create unique atmospheres and the wish to discover more. Small **animations, sounds** and **voices** make the discovery very engaging. Empty shapes help children guess which buildings are missing and need to be put back in place, just as in a jigsaw; once the skylines are completed, cities are brought to life.

There is a **special event for each city**: when you are in Venice, you can hear the **high tide** alert and see what happens in the city; by going to Frisco, you can take a cable car for a ride uphill...

The app – in Italian and English – is available for iPhone and iPad on the app store:

[https:// itunes.apple.com/us/app/art-stories-citta/id1071919878?mt=8](https://itunes.apple.com/us/app/art-stories-citta/id1071919878?mt=8)

or you can simply digit Art Stories CITIES.

It is on sale at **2,99€**.

Soon it will be available on the Google Play Store.

www.youtube.com/watch?v=rEMuXmoPk7o

At the end of each journey, children are rewarded with a **passport**, complete with a set of visas that prove the visit.

Children can also create and save their own **free landscape**, choosing backgrounds, houses, buildings, greens and transport.

With CITIES, children are trained, in a safe and secure environment, to:

- _ identify complex shapes,
- _ decipher colour codes,
- _ recognize landmarks,
- _ concentrate on short explanations.

Further than the app:

With the help of parents and teachers, the app can be used either to teach geography or while travelling; you can also download the colouring book here:
